Circular to Parents – Grades 1 to 10 Educational Software Update

Dear Parent,

We are happy to share that we have introduced Literacy Planet as a learning app for continuous reading programme for improvement and enhancement of English communication among students

Please note that MyOn will no longer will be available after June 2018.

Literacy Planet is a more advanced resource with additional features, offering 15,000+ interactive exercises, activities and games which incorporates the key areas of literacy – Pre-Reading, Phonics, Sight Words, Reading, Spelling, Comprehension and Grammar. In addition, Literacy Planet offers teachers, principals and parents a range of teaching and reporting tools which helps to monitor student progress and performance. Differentiated learning is available by assigning individual tasks to students. Literacy Planet has been developed to engage students by using games and social mechanics which motivates learning and rewards participation.

Literacy Planet is already being used by our students during school hours. We strongly request parents to kindly ensure that students spend some time every day completing the assigned task and reading activities on Literacy Planet.

Warm Regards,

Jwairia Saleem
Principal
